

Handling Sets FXCB

Handling Sets FXCB

System Design Handling Sets FXCB

Suitability for Industry Specific Applications

Applications

- Ready-to-connect handling set for lightweight robots and cobots based on an intelligent and pneumatic area gripper
- Contains the area gripper and the required connection cable
- Low-weight handling set for handling workpieces in the area of intra-logistics
- Perfect for stationary handling tasks such as palletizing and de-palletizing cardboard boxes

Design

- Modular gripper with 3D-printed housing
- Flange (1) for mechanical connection to the lightweight robot or cobot
- Integrated vacuum generation (2) through energysaving ejector modules SEP
- Flexible sealing foam with adhesive film or suction cups (3)
- Vacuum switch VSi (4) for system monitoring
- Compressed air connection (6) and electrical connection M12-8 (5) for connection cable
